Multiple Sclerosis Society

Hello,

My name is Gill Ford and I am the secretary of the Guernsey branch of the MS Society. I was diagnosed with MS in the year I turned 40.

I have put together this small pack for you which probably Debbie Robilliard, the MS nurse, has given you. Due to data protection laws the nurse is unable to give out information about people newly diagnosed without their permission. I hope this pack, with this letter, contains the necessary information about how and who you can contact for help, or maybe you would just like someone to talk to.

My email address is on the top of this letter and the rest of the committee is listed on the Guernsey MS Society website which is www.guernseyms.com. You will also find on the website information about MS, the support which is available in Guernsey, our newsletters, events and a link to the UK MS Society. On the UK site is a link to the MS membership form; I have enclosed a printed form in case you would prefer to join that way. Membership is just £5.00 per year and gives you up-dates on MS research, newsletters from your branch and every 3 months you will receive a magazine called MS Matters. MS Matters is packed with information and tips on MS and the latest research.

Best regards

Gill
